PROJECTS

PTSC Website ⧉ / React, Vite, Node.js, Express.js, MongoDB, AWS S3, JWT　　**Sept 2025**

- Co-developed the official Programming Club website with a 3-member team, supporting event registrations, attendance tracking, and role-based admin workflows for 300+ users.
- Led backend scalability, security, and DevOps by deploying the API on AWS EC2 with PM2, HTTPS via Certbot, and DNS management using Cloudflare, achieving 99%+ uptime.
- Implemented secure JWT authentication, AWS S3 media uploads using presigned URLs, and optimized MongoDB schemas, reducing admin operational effort by ~50%.

EXPERIENCE

Full Stack Intern　　　　　　　　　　　　　　　　**Jun 2025 – Aug 2025**
Labmentix

- Joined as a Full Stack Intern as a fresher, quickly adapting to the development workflow and collaborating with the team on real-world applications.
- Contributed to two full-stack projects — **Freelancer Web App** and **Digital Signature Web App** — working on frontend–backend integration and feature implementation.
- Gained hands-on experience with RESTful APIs, JWT-based authentication, API testing using Postman, and debugging end-to-end application flows.

Co-Organizer　　　　　　　　　　　　　　　　　　**Oct 2025 – Dec 2025**
HACKtoLEARN

- Served as Co-Organizer for an online hackathon, assisting in planning, coordination, and smooth execution of the event.
- Managed participant onboarding, team coordination, and communication workflows, supporting **100+ participants** throughout the hackathon.
- Collaborated with the organizing team on problem statement design, mentor coordination, submission evaluation flow, and final result announcements.

Campus Mantri(Campus Ambassador)　　　　　　　　　**Jan 2026 – Present**
GeeksforGeeks

- Joined as a Campus Mantri, actively developing leadership skills, learning new initiatives, and supporting students in gaining technical knowledge and growth opportunities.
